

# All You Need Is Love

Don Gnecco

Since I've known you your heart has been heavy.  
You never told me what makes you so sad.  
All through the night you cried until the morning.  
When given time, love will heal your broken heart.

*Chorus:*

*We all need someone to see ourselves more clearly.  
Night or day, just know I'm here for you.  
I want you to know that I love you so.  
The pow'r of love will help your light shine through.*

I know you're hurting, and your heart is aching;  
I know you're wond'ring just where things will go.  
But through the darkness things are brighter in the morning.  
Your heart will mend, for all you need is love.

*Chorus*

When all around you your whole world seems empty,  
And you feel lonely and lost in the crowd,  
A word from a friend, a smile at just the right time;  
Things will work out, for all you need is love.

*Instrumental (half of chorus)  
Remainder of Chorus*

I know it's hard when you search to find the answer.  
Just ask the question, that's all you need to do.  
Open your heart and ask for some direction.  
Things will work out, for all you need is love.
