

Friendship Around the World

Don Gnecco

We're making friends around the world,
Neighbors across the sea.
United we stand, hand holding hand,
Far as you can see.

We're many colors, yes it's true,
Under the rising sun.
Reaching deep down inside, love is our guide,
Peace for everyone.

With an open hand you may make a friend.
When that friend does something kind,
You may find it touches your heart.
Friendship Around the World.

Instrumental

With an open hand you may make a friend.
When that friend does something kind,
You may find it touches your heart.
Friendship Around the World.
Friendship Around the World.
Friendship Around the World.
